

THE VDH WAGON IS HERE TO STAY AND MAKES WORK A PLEASURE

Tired of pushing and pulling a wheelbarrow? **The answer is right here.**
You don't have to lift a wheelbarrow, balance it, and push it anymore.
Upgrade to a VDH WAGON.

- Ergonomics wise. Pulling takes less energy than pushing and less force is needed for pulling a load compared to pushing a load.
- Only one person can unload it by using one hand only – even when fully loaded.
- Capacity of 200 litres – almost three times more than a wheelbarrow
- Moves easily over rocks, uneven terrain, wet soil and grass
- Minute turning circle to work within restricted spaces.
- Can tip 90° - nothing stays behind in the loadbox
- Fits through standard doors and garden gates
- Inflatable tyres for easier movement
- Won't tip over when unloading
- Towable (optional extra)
- Low maintenance

Introductory offer!
Only R4299 (ex VAT)

The VDH Wagon is a utility wagon, garden cart, firewood hauler, manure cart, dump cart, wheelbarrow and ATV or lawnmower ride-on tractor trailer. All in one wagon.
